

Existing Appendix to Performance Standards Crosswalk Tool

This tool is intended to identify historical and existing appendix policies that have been transitioned into performance standards. As work continues on the County-wide quality improvement action plan, all of the existing appendix policies will be reviewed by the Technical Advisory Group (TAG) and transitioned into performance standards

| <u>Existing Appendix Skill</u> | <u>Action</u> |
|--|--|
| Policy 10 End-Tidal CO2 Monitoring Devices | DELETE-Incorporated in and replaced by performance standards for intubation (Appendix Policies 9004-9007) and Post Intubation Confirmation and Monitoring (Appendix Policy 9008) |
| Policy 17 ET Introducing Stylet | DELETE-Replaced by Supplemental Performance Standard for ET Introducing Stylet - Appendix Policy 9004A (content remains the same) |
| Policy 19 Intranasal Administration of Medications | Remains as is for this update. |
| Policy 20 Intraosseous Infusions | Remains as is for this update. |
| Policy 25 King Airway | DELETE-Replaced by Supplemental Performance Standard for King Airway - Appendix Policy 9007A (minor content change removing the requirement to have a second stand-by tube) |
| Policy 28 Multi-Lumen Airway Intubation | DELETE-Replaced by Supplemental Performance Standard for Multi-Lumen Airway/Combitube Appendix Policy - 9007B (content remains the same) |
| Policy 30 Nasopharyngeal Airway Insertion | DELETE-Incorporated in and replaced by Performance Standard for BLS Airway Adjuncts - Appendix Policy 9001 |
| Policy 40 Nasotracheal Intubation | DELETE-Incorporated in and replaced by Performance Standard for Nasotracheal Intubation - Appendix Policy 9005 |
| Policy 45 Needle Cricothyrotomy | Remains as is for this update. |

Policy 50 Needle Thoracostomy

DELETE-Incorporated in and replaced by
Performance Standard for Needle
Thoracostomy - Appendix Policy 9009

Policy 60 Pediatric Intubation

DELETE-Incorporated in and replaced by
Performance Standard for Pediatric
Endotracheal Intubation - Appendix
Policy 9006

Policy 67 Transcutaneous Pacing (TCP)

DELETE-Incorporated in and replaced by
Performance Standard for
Transcutaneous Pacing (TCP) - Appendix
Policy 9010

Policy 80 12-Lead EKG

Remains as is for this update.

The following Performance Standards were developed and, although they are in the Riverside County paramedic scope of practice, have no associated Appendix policies to replace. Please place them in your Policy Manual in numeric order:

Appendix Policy 9002 – Laryngoscopy and Magill Forceps

Appendix Policy 9003 – Positive Pressure Ventilation

Appendix Policy 9007 – Rescue Airway Insertion

Appendix Policy 9011 – Synchronized Cardioversion

Appendix Policy 9012 – Continuous Positive Airway Pressure
