PMAC Draft Minutes
August 22, 2022

	4. At the May Stroke Committee meeting, the Committee agreed to quarterly update to agency level performance measure reports. The reports have been distributed to the corresponding agency for feedback.	
5. OTHER REPORTS		
5.1. EMCC Report	At the last EMCC meeting, the Committee discussed reports from the data unit, fiscal year end reports and clinical updates. Looking at new memberships and new members joining EMCC. Next EMCC meeting is scheduled for September.	Information only.
5.2. EMD Update	International Academy of Emergency Dispatch has put out a new update for surveillance of Monkeypox <ul style="list-style-type: none"> • Awaiting details on what this update includes for dispatch etc. • Once it is up and running on the IT, follow up discussion and updates will be provided <p>Policy #2101 update changes to CPR and CPR renewal</p>	
5.3. Ultrasound Trial Study	No changes at this time.	
6. DISCUSSION ITEMS, UNFINISHED & NEW BUSINESS		
6.1 Unfinished Business	Unfinished business	
6.1.1 PMAC Representation 6.1.1.1 EMT-at-Large position	No current nominations for EMT-at-Large position. REMSA will begin reaching out for recruitments to fill the position and bring forth a nomination at the next PMAC meeting in November. Stephen Kernop, RUHS will fulfill the vacant seat on the Trauma Committee.	
6.2 Recognitions	None.	
6.3 CQI Update	Working on updating the Skills Verification process and manual for both paramedic and EMT. Reviewing the CQI module for hypoglycemia. Most occurrences are still due to documentation.	Information only.
6.4 Education/Policy Update	Reviewed Fall 2022 policy and protocol updates and changes that will become effective on October 1, 2022. Details listed on Attachment E. Education has been released to all providers and is posted on the website, rivcoems.org.	
6.5 Policy Review and Cycle Changes	Policy review and cycle changes were discussed at Fire Chief's. REMSA would like to move forward with shifting the education schedule to start Train the Trainer education at the April CQILT, and for providers to begin their own training in May and June. After discussion with PMAC, and without reaching a consensus	

PMAC Draft Minutes

	from the providers, REMSA will continue to discuss the cycle changes internally before making the final changes. An email will be sent out to all providers to solicit a vote for final approval.	
6.6 Policy 3308 – ALS to BLS Downgrade	Continued discussion was had regarding Policy #3308 ALS to BLS downgrade. Upon review of the data, REMSA is still finding inappropriate downgrades. A standardized response is needed, regardless of who is responding. The CQI module for #3308 needs to be done by all providers utilizing the policy for 100% of the calls. #3308 is a provisional policy that expires tonight. PMAC discussed whether to revert back to the previous policy or extend the policy again to avoid disruption. PMAC proposed to extend the policy one last time, with a new expiration date of November 28 th , 2022. By the October CQILT meeting, additional data will be reviewed for discussion from REMSA and providers. At the November PMAC, a finalized version of the policy will be presented for both Assess and refer and ALS to BLS downgrade to make it an Operational policy.	PMAC approved to extend Policy #3308 to expire on November 28, 2022.
6.7 HEMS	REMSA has draft agreements ready to be reviewed with HEMS providers tomorrow. Unified SCOPE LOSOP will be submitted to the State to be discussed in December for approval.	Information only.
6.8 CARES Update	2021 CARES summary data report was presented. Looked at: total patients reported, age, location of arrest, arrest witnessed, first arrest rhythm, pre-hospital outcome, and overall survival rates within our region. Summary and findings were discussed.	Information only.
6.9 Training/EMT Programs/ AEMT	Addressed concerns for shortage of paramedics and preceptors. Requested if there could be a policy put in place to give Riverside County programs priority in placement over other outside agencies. REMSA recommended Bob Fontaine to bring a draft policy proposal to the next CQILT for the group to review. In the meantime, REMSA will also revisit the training policy to see if any updates can be made. Advanced AEMT courses available if agencies would like.	
6.10 Festivals Update	Festival update presentation was reviewed. Discussed the number of encounters, transports, acuity, procedures performed, and staffing required. Staffing was a big challenge this year. Discussed opportunities for changes for next year.	
6.11 COVID and Monkeypox Update	<ul style="list-style-type: none"> • COVID-19 still in a community transmission rate • Anticipate in September to have Omicron booster vaccines available • State and Riverside County have declared variant types of emergencies for Monkeypox (MPX) • MPX Cases reported worldwide 	

PMAC Draft Minutes

Provisional Policy		3308
Effective January 1, 2022		Expires November 28, 2022
Policy: ALS to BLS Downgrade	Approval: Medical Director Reza Vaezazizi, MD	Signature
Applies To: First Responder Serv., Transport Services	Approval: EMS Administrator Trevor Douville	Signature

PURPOSE

To establish criteria for downgrading from an advanced life support (ALS) level of care to a basic life support (BLS) level of care in the pre-hospital setting.

APPLICATION

The intent of this policy is to permit first response agencies to downgrade the expected level of care a patient will receive during transport so that the maximum number of ALS transport ambulances are able to remain in service, and available, to respond to other medical aid requests. If / when an ALS transport ambulance arrives on scene before a first response agency apparatus, and the ALS transport paramedic determines that additional ALS assistance is not required **AND** the patient’s condition meets the criteria below, the patient should be transported by that ambulance. It is not appropriate for an ALS transporting unit to wait at the scene for a BLS transporting unit when the paramedic is able to provide a BLS level of care.

AUTHORITY

- [California Health and Safety Code - Division 2.5: Emergency Medical Services \[1797.204.\]](#)
- [California Health and Safety Code - Division 2.5: Emergency Medical Services \[1797.206.\]](#)

GENERAL CONSIDERATIONS PRIOR TO DOWNGRADE

- Patients who require immediate medical attention will be transported to the closest most appropriate hospital.
- Patients who have received ALS interventions, or those who would likely benefit from ALS intervention(s), cannot be downgraded to a BLS level of care.

ALS to BLS DOWNGRADE DECISION MAKING PRINCIPLES

The three (3) following criteria must be met before a patient’s level of care, and transport, may be downgraded from ALS to a BLS:

1. A complete paramedic assessment must be performed
2. No ALS intervention is warranted or has been initiated.
3. Paramedic judgement indicates that the patient does not require an ALS level of care.
 - a. If the patient’s condition deteriorates during transport, the BLS resource shall transport the patient to the closest most appropriate receiving center and make appropriate notifications.

DOCUMENTATION REQUIREMENTS WHEN DOWNGRADING FROM ALS to BLS

In addition to the minimum NEMSIS requirements, the following must be documented in the ePCR:

- After selecting *Patient Treated and Care Transferred to Another EMS Unit* as the disposition, “**BLS**” must be selected as the *Transporting Ambulance Level of Care* in the “Ground Transport” panel.
- Physical exam findings.
- Treatments provided, if any.
- All pertinent findings and observations.
- Patient, parent, or guardian is alert, oriented, and acting appropriately for their age.
- Indications that there are no signs of significant impairment due to drugs, alcohol, organic causes, or mental illness.

CONTINUOUS QUALITY IMPROVEMENT

All patient dispositions where the level of care was downgraded from ALS to BLS will undergo 100% CQI by the ALS service providers.
